Kyle P. Scott, president, presided over the business session. The membership authorized a contribution of \$15.00 to the National Guard Homecoming Celebration Fund, and a \$20.00 advertisement in the football program of the local high school. When Mr. Harrington, who held three tickets, was notified by long distance, Friday night, that he was the winner, he gave the calf back to the West Henderson School for re-sale.

## Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

Some time ago, the county commission set an October 1 deadline to quit supplying water and sewerage service to a number of property owners near the airport north of Belvedere Road.

The property involved is a number of parcels which individuals purchased from the government when the land which had been part of International Airport was offered for sale.

Since that time the land owners have had use of the airport utilities—for many months without charge. The commission finally decided to end the service to all owners except the Palm Beach County School Board which has holdings in the area.

Among the land purchasers was West Palm Beach Commissioner Sylvan Burdick who has been at odds with the county board over payment of water and sewerage charges.

This week Burdick appeared before the commission to advise them that pipes which served the school board were located on his property.

Burdick said in effect to the commission that when the water service was cut off at the first of the month, he was going to take his pipe and go home—which would

leave the school board without service.

Commission Chairman Lake Lytal said it was the responsibility of the school board to get its pipeline on its own lands and that present utility easements were not the responsibility of the county group.

Meantime, Burdick, school board authorities and airport officials have scheduled a conference to determine what can be worked out in an effort to maintain service.

The county commission this week gave the green light for start of a street improvement project delayed from its last meeting because of property owner opposition to price of the program.

The board approved assessment resolution for rebuilding five streets in a sub division near Lake Worth when it learned that opposition had been withdrawn.

Two weeks ago a delegation of property owners questioned the price of the work which topped original estimates set for the job. In a letter this week, the property owners asked the board to approve the street assessment and to award a contract for the work.

In a similar program, the board Monday received bids for three other sub division streets and called for a public hearing on the project for Sept. 24.

The commission noted that the four bids received which ranged in the \$25,000 bracket, were in excess of estimates originally posted for the work.

The board also received bids this week for a new four-door passenger car; road oil and truck service.

The commission also approved

bids received earlier awarding a five year insurance contract to be split between four agencies and called for bids for \$5 million insurance on county airports.

The split bid of \$99,103 resulted in one parent company submitting the price with four company agencies making identical presentations to the commission.

The extension of a garbage collection franchise from Roy Ford Inc., which serves a section in the north end of the county, was approved this week by the county commission.

At the same time, the board delayed taking any action on a franchise request from W. L. Daugherty, a firm working in the same north county area.

Chairman Lake Lytal asked that a conference be called to discuss the Daugherty franchise before any action was taken.

Mrs. Clyde Harvey and Mrs. Peggy Rowgan, both of Lakeland, who were the guests of Mrs. Harvey's brother-in-law and sister, Mr. and Mrs. J. M. Elliott, for several days last week, returned home Sunday.

It will feature a covered dish supper and the names of "secret sisters" will be revealed. The hostess served refreshment to 20 members during the social hour.

Mrs. R. W. Pride, Sr. of Georgiana, Ala., will arrive next Tuesday to visit her cousin, Mrs. Adeline Wroten on North Barfield Highway.

Mr. and Mrs. Allen Fowler left Monday for Nashville, Tenn., where she will enroll as a student in Peabody College, and he will attend a vocational school specializing in auto mechanics.

*"Today we need a nation of Minute Men . . . citizens who regard the preservation of freedom as a basic purpose of their daily life . . . ."*

—JOHN FITZGERALD KENNEDY

10 days after his inauguration  
as the 35th President of the  
United States.

Twenty years ago, in the dark, uneasy days before Pearl Harbor, the Minute Man of Concord, timeless symbol of our Nation's determination to defend its freedom, emerged as the emblem of the U. S. Savings Bonds Program. When war came, the Minute Man became the rallying force behind the huge and overwhelmingly successful effort to back our fighting men with War Bonds.

In this, the 20th anniversary year of Savings Bonds, the Minute Man of Concord calls all Americans to an unremitting effort to help preserve our peace and freedom, threatened by forces more powerful and resourceful than those we faced in 1941. Though this effort will take many forms, one way open to all is the continued investment in Shares in America, U. S. Savings Bonds, by "citizens who regard the preservation of freedom as a basic purpose of their daily life."

For 20 years America's newspapers have published Savings Bonds ads at no cost to the Government. The Treasury Dept. is grateful to The Advertising Council and this newspaper for their patriotic support.

## Rogers Asks That Monroe Doctrine Be Called To Use

Congressman Paul G. Rogers, (D., Fla.) today called on the Congress to re-assert the Monroe Doctrine as National policy in the face of the Russian arms build-up in Cuba.

Introducing a Congressional Resolution restating the historic United States policy in the Western Hemisphere, Congressman Rogers addressed the House of Representatives, saying:

"America is deeply disturbed over the build-up of Soviet military personnel and material in Cuba. This build-up has been carried out in complete and absolute defiance of the United States policy of protecting this hemisphere from outside interference.

"This policy was established when President Monroe set forth the Monroe Doctrine on December 2, 1823. This doctrine was unilateral in nature and warns of United States action if an extra-continental power attempts to establish influence anywhere on the American continents.

"Because Cuba has expropriated millions of dollars worth of American property, because Cuba has bitterly attacked and destroyed the principles of freedom and human dignity, because Cuba has attempted to spread the Communist plans of atheistic dictatorship and oppression throughout Latin America, and because Cuba has turned a bloody red, there is definite need to re-assert the Monroe Doctrine, particularly now, when the Soviet Union has flooded Cuba with communist military equipment, supplies and personnel. They have thereby formally established a Soviet satellite in the Western hemisphere."

## Florida Is Ahead In Orange Supply

LAKELAND—For the first time in history, Florida has become the leading supplier of fresh oranges to United States markets.

California slipped out of the top position during the 1961-62 season just ended, according to Dr. W. E. Black, director of economic and merchandising research for the Florida Citrus Commission.

Florida's share of the national fresh orange market rose to 50.2 percent in 1961-62 as compared with 39.2 the previous season. During the same period California dropped from 52.5 percent down to 44.6 percent.

Dr. Black pointed out that this provided Florida shippers with a clean sweep of the fresh citrus unloadings, since grapefruit and tangerines from the Sunshine State have been habitual leaders in sharing the national markets.

Guests were N. T. Taylor and Gary Curlee, both of Belle Glade, John Stewart, Lake Worth and Rev. Guthrie Colvard.

# Picture of a Promise

Sure, she's a grand old flag!  
That's why we salute her.  
That's why we pledge allegiance to her.

That pledge, in its simplest terms, is another way of saying, "Count me in. You're my country and I love you and need you. Your problems are my problems, and I'm with you all the way."

Your country's biggest single problem is the perpetual responsibility for keeping the peace its people want. You can help with this problem by remembering this:

Peace costs money. Money for military and industrial strength. Money for science and education. And money saved by individuals — by you — to help keep the economy strong. Bonds provide this money.

## Christian Science Group Of Canal Point

The spiritual foundation of true peace and brotherhood will be set forth at Christian Science church services Sunday in a Lesson-Sermon entitled "Substance."

Featured in the Bible selections are a number of passages from the Book of James, including these: "Who is a wise man and endowed with knowledge among you? let him shew out of a good conversation his works with meekness of wisdom. . . . And the fruit of righteousness is sown in peace of them that make peace."

The following will be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (p. 467): "It should be thoroughly understood that all men have one Mind, one God and Father, one Life, Truth, and Love. Mankind will become perfect in proportion as this fact becomes apparent, war will cease and the true brotherhood of man will be established."

## Times Change...

and so do telephones. Modern research and ingenuity bring daily miracles of communications into our homes and offices. Home interphones, bell chimes, data phones, call directors . . . these and many more make life easier, smoother. And there's always something new to come.

But some things stay the same. The dependability of your telephone and the company behind it. The sturdy sense of community responsibility of the

men and women of Southern Bell. These qualities made your telephone a bargain in 1880, when Southern Bell began operations in Florida . . . and an even greater one today.

## Glades Road Blocked By Prison Department

TALLAHASSEE — Approval of an access road through state prison lands to a \$12.6 million sugar mill at Belle Glade was temporarily blocked Tuesday by the state division of corrections.

Director Louie Wainwright said the road posed a security threat to the Glades state prison farm. He said it also would hamper farm operations, require relocation of a pumping station, cattle pens and weighing scales and take over a rock road which provides the only access to the farm in rainy weather.

### HOME FROM ALABAMA

Mrs. M. H. Baxter returned Tuesday from a visit with relatives in Carlton, Alabama. She was accompanied to Alabama by her sister, Mrs. Will Wimberly who had been her house guest for several weeks. Mrs. Baxter was accompanied home by another sister, Mrs. Ester Bumpers, also of Carlton.

Miss Patsy Batchelor returned Sunday from a trip of several weeks to Panama City and New Orleans, La.

Over objections of Palm Beach County and Atty. Gen. Richard Ervin, the cabinet trustees of the internal improvement fund delayed action on the road until Sept. 25. It voted 3-1 to send a committee headed by Agriculture Commissioner Doyle Conner to inspect the site and make a recommendation.

Ervin said the delay was "needless." He said since the county commission vouched for the road site and it was essential to the economy of the area, it should be approved.

### CLYDE ALLEY, JR., IS HOME

Sp-4 Clyde Alley, Jr., son of Mrs. Wilma Alley, who has just received his discharge from the US Army, arrived in Pahokee, Friday, from Kirchgon, Germany, where he was stationed for two years and eight months.
